Globally Renowned Faculty
Faculty members from top global institutions and rich industry experience

International Exposure
Student exchange programmes and collaborations with foreign institutions

Industry Connect
Regular interactions with industry leaders, live projects and internships

MESSAGE FROM THE PRESIDENT

In 1991, Prof. Philip started XIME on a simple belief: that management education in India could be built around excellence, not convenience. As our Principal Founder, he set a standard this institution has never treated as negotiable, and it's a standard I find myself applying differently than I would have a decade ago.

For most of its history, management education offered fairly linear value: teaching students what to know frameworks, theories, case facts. The better institutions later moved a step further, teaching how to learn to do - simulations, structured practice. Today, that is no longer enough. The frontier has moved again, demanding something harder to teach: the ability to actually execute, under ambiguity, in real time, with incomplete information. Execution - the willingness to act, decide, and own the outcome now separates a good manager from an indispensable one.

This shift has been accelerated by artificial intelligence, which is narrowing the knowledge gap faster than any classroom ever could. Facts, frameworks, even first-draft analysis are now a prompt away. What it cannot replicate is judgement: reading a difficult stakeholder, owning an ambiguous call, leading a team through uncertainty, earning trust. As the knowledge gap narrows, the premium on these distinctly human capabilities only rises. XIME is responding to this shift directly, investing in resources like the Bloomberg Finance Lab, Harvard Business Simulations, Analytics Labs, and live industry projects that push students out of theory and into real decisions with real stakes. This is the XIME of today: rooted in excellence, unafraid to keep redefining what needs to be done as the world around management education changes. We are preparing our students to bring judgement, ownership, and human leadership to the age of AI. That has always been the purpose of XIME. It simply matters more now than ever.

Warm regards,

Anil. J. Philip
President, XIME Society

A VIBRANT CAMPUS EXPERIENCE AT XIME CHENNAI

VISION AND MISSION

Vision of XIME Chennai

To be a premier management institution that develops future-ready leaders with a strong sense of social responsibility and contributes to a sustainable and inclusive society.

Mission of XIME Chennai

To provide value-based management education through academic excellence, industry engagement, research and experiential learning, nurturing responsible and ethical leaders for business and society.

PGDM PROGRAM

XIME Chennai offers a two-year, full-time Post Graduate Diploma in Management (PGDM), approved by AICTE. The programme is designed to develop managerial competence, leadership qualities and an entrepreneurial mindset through a balanced combination of academic rigor, industry interaction, practical learning and experiential exposure.

The curriculum blends core management subjects with specializations, electives, industry projects, internships and the CARE (Community Action Through Responsible Engagement) programme, enabling students to build domain knowledge, analytical skills and a strong sense of social responsibility.

PROGRAM EDUCATIONAL OBJECTIVES

The PGDM programme at XIME Chennai aims to:

PEO1	Develop management professionals with strong functional knowledge, analytical skills and a global outlook to excel in dynamic business environments.
PEO2	Nurture ethical, socially responsible and value-driven leaders who contribute to sustainable and inclusive growth.
PEO3	Foster innovation, entrepreneurial thinking and adaptability to address complex business challenges.
PEO4	Build effective communicators and collaborative professionals who can work across diverse teams and in multicultural environments.
